

## HARDING SPENDS STRENUOUS DAY IN WASHINGTON

Receives Congratulatory Messages From Friends

## PLANS ARE NOT ANNOUNCED

WASHINGTON, June 14.—Senator Harding today found the life of the Republican presidential nominee strenuous, although he held no important political conferences. He went to his office at the capitol shortly before noon, posed for motion picture men, greeted senate employees, received a few personal friends, who called to congratulate him, went over great piles of congratulatory telegrams, played a round of golf and then worked far into the night at his home in an effort to catch up with rapidly increasing correspondence.

The nominee steadfastly declined to make any statement regarding his position on party policies, indicating that he would have nothing to say before making his acceptance speech. He also said that pending his official notification he would withhold making public his campaign plans. He also declined to say at this time whether he would resign his senate seat.

Senator Harding's plans for the immediate future are indefinite. He intends to remain here until late this week, when he will leave for a brief vacation. He does not contemplate reaching his home in Marion, Ohio, before about July 1. The notification ceremonies are expected to take place soon after, as the vacation will give him an opportunity to prepare his speech of acceptance sounding the campaign keynote.

Chairman Hays, of the Republican national committee, and a number of party leaders are expected to confer with the Ohio senator, probably next Sunday, although the date has not been definitely fixed. The place of the conference, it was also understood, has not been determined.

Senator Lodge, Senator Smoot of Utah, and others are in Washington, but no arrangements so far have been made, it was announced tonight.

Senator Lodge plans to leave for his home tomorrow, while the Utah senator will remain another week.

Senator Harding's return to his office was the signal for an informal reception by senate employees, who crowded about to congratulate him. Shortly before his arrival his private office was decorated with a large American flag and flowers, while during the day large numbers of bouquets were received from friends. Despite his strenuous week at the convention he seemed in fine fettle and kept up a running fire of humorous comments as the camera men worked.

"He's happy as a lark," remarked one bystander.

The senator seemed greatly touched as he read congratulatory telegrams from Governor Coolidge, former President Taft, General Wood and Senator Johnson, opponents for the nomination, as well as from Senator Pomeroy, his Democratic colleague from Ohio.

"Now wasn't that nice in him," or "it was very thoughtful of him to send that message," were his most frequent comments as he carefully read the telegrams.

Among his first responses was a telegram sent to Governor Coolidge, thanking him and declaring that by the selection of a "truly great and trusted American for the vice-presidential nomination, the ticket had been strengthened."

Shortly before the senator left his office, he was invited to speak at a flag day celebration held tonight on the plaza in front of the capitol, but owing to the rush of work was compelled to decline.

The sudden accumulation of work resulted in the senator being forced today to secure additional office space, part of which will be used as a press room for newspapermen. Beginning tomorrow he also plans to have daily conferences with them as long as he is in Washington.

He also will confer tomorrow with Leslie M. Shaw, former secretary of the treasury.

In deciding to play golf today the senator said he wanted to "get some of the convention to hocco smoke out of his system."

He was accompanied on the links by Senator Sutherland of West Virginia, former Senator Borah, and B. P. Warner, Jr. of Washington.

**GIVEN FIVE YEARS FOR BURNING BUILDING**

Williams today said Bellman "had nothing whatever to do with it."

## JACK DEMPSEY TAKES STAND IN HIS OWN DEFENSE

Denies Charges of Non-Support or Cruelty Made by His Wife at the Trial

SAN FRANCISCO, Cal., June 14.—"Jack" Dempsey, boxing champion, took the witness stand in his own defense today in his trial on charges of evading the draft. He denied charges of non-support and cruelty made by his former wife, Mrs. Maxine Dempsey, in testimony given earlier in the trial.

Dempsey described himself as having been the principal support of his family from the time he was 14. He detailed experiences as a farm hand, miner, carpenter and boxer, experiencing reverses when "the boxing game was dull," and toward the end, as a budding champion, Dempsey said he supported his wife until she left him. He denied he had broken his wife's jaw by a blow while they were living at a hotel here, as she had charged, "because she had not earned any money for him."

Dempsey said he never struck her, and that the fracture was caused by a fall.

Dempsey said his earnings in the ring for 1917 were about \$4,000. The next year much of his time was spent in appearances at patriotic benefits, out of which, he said, besides traveling expenses, he got "two wrist watches and a gold pencil."

"I wanted to do the country some good," he said, in explanation of his boxing for nothing.

Early in 1917, Dempsey said, he left his wife in San Francisco, while he went back to Salt Lake to box. He returned ten days later to find her gone. Boxing promoters, then told him he was worth about "30 cents" to them, because of remarks his wife had made about his "laying down to Flynn," he said. Later he testified he got a job in the ship yards at Seattle on account of the dullness of the boxing game.

Dempsey told of his work as a government recruiting agent for the ship yards late in 1918, saying he "guessed he got three or four hundred men" to work in the Philadelphia ship yards. Cross examination failed to alter or confuse his testimony. The dense announced that only one or two more witnesses would be called.

W. H. Stolorow, of St. Paul, testified he wrote most of the answers to Dempsey's questionnaire at a Chicago hotel. He said he had done it in a spirit of friendly co-operation, and that nothing was said to indicate anything on the part of Dempsey or his manager, Jack Kearns, but a desire to answer honestly. Dempsey corroborated his testimony and a similar story was told by L. Lichtenstein, of Chicago, in whose room the paper was signed.

## LONDON PAPERS DISCUSS HARDING FOR PRESIDENT

Effect on American Foreign Policy Main Topic

## THINK DEFEAT NOT IMPOSSIBLE

LONDON, June 14.—The London evening paper editorials on the Republican nomination are devoted largely to speculation on Senator Harding's chances for election and what effect that would have on the American foreign policy. Both the Globe and the Westminster Gazette are of the opinion that his election is by no means assured if the Democrats are able to find a strong candidate.

The Globe thinks a Republican defeat is not impossible if such a man as William G. McAduo, or Ambassador John W. Davis were nominated.

The Westminster Gazette declares Great Britain must preserve neutrality in a presidential conflict but cannot disguise its interest. "It is doubtful," in the opinion of the Gazette, if the November elections can settle the question whether the United States will pursue a purely American policy or take a hand in international politics.

"Had President Wilson been available," says the paper, "he might have boldly carried his banner into the fight and rallied the majority to him by the lofty appeals he knows well how to make. With his default, it is unlikely that any Democrat nominee will do this or get the sanction of the Democratic party for a pure league of nations doctrine."

"On the other hand the Republican party does not entirely close the door on American participation in world politics and even seems to favor some sort of extension of arbitral methods in world affairs."

The Globe says Senator Harding is credited with favoring "reversion to that aloofness from world politics which characterized America in the days before the war. It is a perfectly intelligible point of view, but we venture to think that Senator Harding, if elected, will be compelled by force of circumstances to force something of its old rigidity."

London June 14.—The Star, in an editorial says "Senator Harding will represent in the United States very much what the coalition liberals represent in this country. He is the instrument, we might almost say the tool, of the cleverest group of men in American public life—the Republican senators. The senate is dominated by the trusts."

"Senator Harding is a middle-of-the-road and the social reforms which are as urgent in the United States as they are here, will receive from him, we fear, neither sympathy nor solution."

The Morning Yorkshire Post believes that "there is a better prospect of helpful European policy than we could have looked for had the choice of the delegates at Chicago fallen on a politician holding the opinion on the subject with which Hiram Johnson is credited."

## CHICAGO FACES SERIOUS PROBLEM

CHICAGO, June 14.—With the Chicago city council's 1920 budget already over-appropriated by \$4,500,000 new wage schedules of members of union crafts employed by the city were presented to the finance committee today. Increases asked average twenty percent above their present pay and would add nearly \$900,000 to the budget.

The committee also considered the report of the city wage arbitration commission recommending wage increases totalling \$500,000 for city employees.

The three hundred employees of the municipal garbage reduction plant, who recently returned to work after a brief strike pending the decision of the wage arbitration on their demands for increase pay, will walk out again Wednesday unless increases sought are granted, the commissioner of public works was notified today.

## JOHNSON RETURNS TO WASHINGTON.

Several minutes later she heard a shot. When she ran to the Parker home she found the body of Audie lying on the living room floor with a bullet wound in the back of the head. Raymond had disappeared. Mrs. Maude McDock, the dead boy's mother, works downtown. No one else was at home.

Another member of the band received an eighteen-months sentence. The judge also attacked the parole system.

## ELWELL MURDER STILL A MYSTERY

NEW YORK, June 14.—Jealousy over a woman or vengeance for heavy losses sustained at cards, if either, furnished the motive for the murder here last Friday of Joseph B. Elwell, wealthy turkman and whist wizard.

Police tonight were fluctuating between these two theories. Clues point to the woman theory, according to the majority of the detectives, who claimed this theory was strengthened when it was learned that Marie Larson, Elwell's housekeeper, had found in the bedroom of his home, when he was shot, a woman's silk undergarment. This garment is reported to belong to a New York society woman, whose name is being withheld pending her examination. Conviction that the husband of this woman, an ex-army man, killed the whist expert, was expressed by some detectives.

Police were reluctant to discard the theory that a gambler, "broken" at whist by Elwell, an international authority on the game, may have done the shooting.

Some witnesses described games in which the "sky literally was the limit."

On the other hand, stories of Elwell's killings—once estimated by his wife, from whom he was separated, as high as \$30,000 one evening—were contradicted by Wilbur C. Whitehead, associated with the banking firm of E. N. Breitung & Company.

WASHINGTON, June 14.—Approximately five billion dollars was appropriated by the Sixty-sixth congress at its session ending June 5, says a statement today by Chairman Good, of the house appropriations committee, for the issue of the Congressional Record.

The exact total of this given was \$4,859,896,327; of this \$4,373,295,279 is for given expenses in the fiscal year beginning July 1, and \$486,495,279 is to meet deficiency for the fiscal year ending with this month.

Chairman Good said congress had reduced estimates of government departments for next year by \$1,474,422,602. Congress added \$64,120,000 to the pension bill, and \$70,861,000 to the postal bill.

The total carried by the thirteen great annual supply bills, as given by Mr. Good, was \$2,212,126,298, including:

Mr. Good charged off \$2,558,968,400 as a direct war "hangover," including funds provided for the railroads interest in the public debt, payment to the sinking fund and \$293,168,400 for re-education, hospital treatment and insurance payment for war veterans.

District Attorney Young announced tonight. He declined to give the names of the suspects, but announced he would conduct a "John Doe" inquiry Friday or Saturday.

Frank Ferraro, the Caruso butler, and George Fitzgerald, the chauffeur, were questioned today, but they stuck to their original stories.

Detectives who have been digging up all available hiding places on the estate, announced tonight they had found no clue to the missing jewels. Five additional detectives have been assigned to assist them.

Sheriff John F. Kelly predicted a sensational revelation when the John Doe inquiry is held. His prediction is not shared, however, by District Attorney Young, who said the situation was unchanged and that he had no immediate intention of making any arrests.

## ORGANIZED LABOR URGES ADOPTION OF LEAGUE OF NATIONS

Appeal Made to Gompers to Use His Influence With Congress

MONTREAL, June 14.—Organized labor of the United States was appealed to by Samuel Gompers of the American Federation of Labor today to give its support to the non-Partisan political program of the federation and to urge upon congress the adoption of the league of nations.

Characterizing the failure of the United States to ratify the covenant as "pitiable" Mr. Gompers, speaking to the annual convention of the federation said, "if the question was submitted to the people, without any other entangling problems, I am positive they would say by an overwhelming vote that they desire the league of nations."

He expressed fear that in the coming campaign the league question will be submerged in the number of questions which must attract the attention of the people.

"It is regrettable," he added, "that the question has not had an opportunity to be presented for the consideration and determination of the people."

Mr. Gompers in his appeal to continue to stand by the non-partisan political program asserting that the subject "may be in concrete form before the convention" within the next few days.

"Forty years of experience of success and triumph," he said, "has shown us the way. The demands which labor makes not only of employers but of society, are for services which labor performs and gives to society and without which such progress would be impossible and civilization would come to a standstill. Labor makes demands for a better and higher life."

"One big union," he said, "could not endure because it ran counter to the laws of human nature."

Mr. Gompers' address came at the close of the convention session today.

## COOLIDGE MAKES KNOWN HIS PLANS

BOSTON, June 14.—Governor Coolidge, Republican vice-presidential nominee, received congratulations from state party leaders and delegates at a reception in the state house today.

In reply, he said:

"The great office to which the party has nominated me is one for which I hold the greatest of respect. I am mindful of the great honor that has been conferred upon me, but I appreciate very much more deeply the mark of friendship that has caused you men and women to come here this afternoon to assure me of your friendship and of your good wishes."

"After all offices are ended and they fade away, Friendship and the esteem in which men hold each other may remain forever. And great as I regard the honor that the convention has conferred upon me, I regard with much more satisfaction and much more honor this tribute of you who know me, who have lived with me and worked and wrought with me, and the confidence that your presence here shows that you have in me."

## NOW FOR A SIX-HOUR DAY

The American Federation of Labor has gone on record as favoring a six-hour day. The theory is that the shorter hours of labor will increase the number of jobs and so give employment to the larger number. The organization leaders seem to be overlooking the economic fact that it is greater production which the times demand and that there can be no worth-while lowering of commodity prices until the increase in production becomes an accomplished fact.

## THE THIRD PARTY TALK

Amos Pinchot and some of his associates have already begun to talk about a third party in the presidential campaign. This is the talk every four years if there is anything in the platform which doesn't quite meet Mr. Pinchot's ideas or if there have been omissions with which he is not pleased.

The only platform that would suit him is one which he has penned himself. However, there is nothing thus far to indicate that Senator Hiram Johnson will lend his support to such a movement. In fact, the California senator has at least indirectly indicated that he will

actively support the Republican nominees.

## CHILD WELFARE WORK

Thirty-eight states, the District of Columbia, and Hawaii, are actively engaged in measures to promote child welfare, according to a bulletin issued by the Children's Bureau of the United States Department of Labor. This bulletin summarizes briefly the work done during Children's Year and contains suggestions for follow-up work.

"Throughout almost the entire country," says the report, "there is an obvious need of the continuance of certain activities which may be said to constitute a Children's Year follow-up program. Among important measures mentioned are better birth registration, the establishment of health stations, weighing and measuring tests, open-air classes, nutritional clinics and other measures for the protection and development of school children, protection from illiteracy and premature work by back-to-school and stay-in-school campaigns, public provision for wholesome play and recreation under trained leadership and supervision of commercial amusements, study by each community of local needs and resources as related to the care of handicapped children, the promotion of new legislation for the care and protection of children based on a study of present laws and local needs, and a study of the child welfare standards adopted by the Children's Bureau Conference on Standards of Child Welfare, held in May and June of last year."

It is hoped, the bulletin states, that the child welfare standards will prove a strong influence in concentrating public attention on the need for federal and state action to protect the health of mothers and children. Interest in the standards has already resulted in the formation of a national permanent committee to establish physical standards for children entering employment, and in measures in a large number of states to secure better

legislation for children born out of wedlock.

## NO RELIEF IN SIGHT

Farmers in the west are being urged to stack their wheat instead of threshing from the shock and waiting for cars to make shipment. This official urging indicates that no early relief in the car shortage situation is expected.

## EDWARDS VS. BRYAN

Governor Edwards has announced that he is ready for a finish fight with Colonel Bryan on a proposed wet plank in the Democratic platform. Colonel Bryan will not be greatly alarmed over the eastern governor's threats. The colonel has been in Democratic conventions before and still has the faculty of dictating both nominees and platforms.

The Chicago time has changed to the daylight saving plan, in accordance with the section of the city council, and is now effective. This puts Chicago an hour out of line with the rest of the state and down-state visitors to the metropolis will need to adjust themselves to the new conditions. The railroads haven't announced what system they will follow for letting the public understand the running time of trains.

## THE FOLLY OF THIS REFUSAL

Chicago school children, who refused to be vaccinated, have been denied admission to certain schools in Chicago. Parents of the children propose to take the matter into the courts. It is very difficult to understand just why some people will refuse to be vaccinated, even when exposure to smallpox is likely to occur, and when the proof is ample that vaccination is the only sure method of providing immunity.

Even a person who doesn't believe in the sufficiency of vaccination should be willing to go to this slight trouble and expense for the benefit of others.

## A DEFINITE GOAL

At last something certain and definite has been done with reference to the East State street pavement. The city council, after going into the whole situation thoroughly, decided that the best plan would be to abandon the tarvia pavement plan and to release the contractor.

The traffic is so heavy on that street and the condition of the present pavement such that all advisers agreed that a satisfactory tarvia job was very unlikely. Now the effort will be made to put through brick pavement proceedings with the hope of having the pavement finished before cold weather comes. That certainly is a worth while goal.

## A WELCOME TO ALL VISITORS

This is hot weather for conventions, but those in charge of the big Sunday school convention here declare that fact will not interfere with the attendance. The convention doesn't open until this morning, but nearly 100 delegates arrived last night, so there is promise that the expectation of the managers will be met.

These Sunday school workers are substantial young people or adults, identified with the best interests of their home community. They are desirable visitors and Jacksonville is glad to welcome them and hopes that their stay here will be both pleasant and profitable. This should be the case, for the program gives promise of interesting discussions and the local committees have made ample preparations for the entertainment of their expected guests.

Rippling Rhymes  
By Walt Mason

**FAVORS.**  
 When I was sick, with chills and fever, Jones did my chores, day after day; he whacked up kindling with a cleaver, and fed the cows and hens his hay. I told him he was sure a treasure, a model neighbor, nothing less; he said it always gave him pleasure to help a comrade in distress. Recovered from my ills and sorrows, I changed my mind concerning Jones; for every day he comes and borrows, a gun, an egg or seven bones. He borrows till he makes me dizzy, and I am drooping over my lyre; he borrows gas for his tin Lizzie and wood to feed his kitchen fire. He borrows bedding and my bazon, on which to toot, and if he would attend a wedding, he asks me for my Sunday suit. "When you were sick," he keeps reminding, "how cheerfully I did your chores! Your eight-day clock you saw me winding, you saw me chase the cat out doors. And so I feel quite free to borrow your aunt, your backsaw and your cow; I'll bring the blamed things back tomorrow, together with your sulky plow." It's doubtless due to moral blindness, but I detest the pilgrim

blond who is resolved to do me kindness, who's bound to lend a helping hand.

## GONE TO CHICAGO.

Two students of Illinois College left Sunday night for Chicago to try their fortunes. They were Leo Connolly of Murrayville, and Clarence John, of Palmyra. They were members of the Glee club during the past season and made a decided hit in a new line for that organization. Their stunt was a vaudeville representation of a colored gentleman and an aged white farmer, interpreted in dialogue, and they played—Connolly on the banjo, and John on the violin.

Their act led to their introduction to a Chicago management, and a good offer to go out on circuits, vaudeville or chautauqua, and also in Chicago, so the young men have "started on the road."

## COUNTY FEDERATION MEETING POSTPONED.

The annual meeting of the county federation which is usually held June 10, has been postponed this year and the session will be held in Nichols park during the chautauqua season. A good attendance is then anticipated.

## A Policy That Pays

REO has never been ambitious to make all the motor cars—only the best. From the first, the policy was to make only as many as could be made and be sure that every REO would be as good as the best REO that ever was turned out of the REO plant. That policy consistently adhered to through the many years has resulted in a demand always greater than the possible output of the big REO plants. At this time the over-demand is such that only the alert can hope to be of the elect who will drive REOS. Today—won't be a minute too soon.

## Smiley Predicts \$20 Flour.

Flour at \$20 a barrel will come before the price of bread-stuffs begin to decline.

This prediction was made recently by E. J. Smiley, secretary of the Kansas Grain Dealers' Association, who delivered an address before the convention of the Trans-Mississippi Association of Master Bakers, in session at the Chamber of Commerce, Topeka, Kan. Mr. Smiley was one of the principal speakers on the afternoon program. He cast a rather gloomy outlook upon the prospects for a big wheat crop this year.

Barring financial trouble, bread grains will continue to soar for at least another year, he said. Even at that the price of bread has not been boosted as much as other necessities, he declared.

Quit Laxatives,  
Purges; Try NR

NR Tonight—Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, cathartics, or purgatives. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleansing out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Vacation or for Business

When you take your vacation this year, you are going to wear proper clothes.

Proper clothes means clothes which will keep you cool and make you appear in the eyes of the world as a progressive, up-to-date business man. It is as important to your health that you "feel" mentally right as that you make money and succeed in business. You cannot feel right if poorly dressed, especially amongst strangers. Think about this before you go away. You can buy clothes in Jacksonville, especially good tailored to order clothes, cheaper than in any other city to which you will go. There is no argument about this whatever. Come to see us before you go, and at least inform yourself on this question, whether you now feel able to buy clothes or not.

## INDEES BOWL OVER BOWLING GREEN TEAM

Colored Giants Prove Pigmies in Hands of Locals—Final Score Was 18 to 4—Smith Tries Three Twirlers.

Bowling Green's colored Giants proved pigmies in the hands of the locals at South Side park Sunday afternoon when they went down to defeat by a score of 18 to 4.

It was not much trouble to show the boys from Champ Clark's town and had the Indies used any judgment at all in the first inning, the game might have been going yet. In that stanza the first three men up got on. Then, by virtue of some poor judgment by the home battery the visitors retired the side with a run being scored.

This was the only inning in which Bowling Green looked to be of any class whatever. After that it was only a question of how many the Indies would make.

The game was marked by some good fielding on the part of the locals. Ruble made a great catch of a short liner into left center off of Sloan in the fourth, and "Happy" DeFrates, playing in right field, threw out House, after he had singled into that garden, by some fast work. Grady caught a good game for Jacksonville, while Simms saved the infield a lot of wild throws by his grabs at first base.

Smith relieved Padgett in the seventh by sending Patrick to the mound, and the veteran showed he still has something by striking out two batters. Hamm finished the game, just tossing them over.

How the Runs Were Made  
Two bases on balls two infield singles, two stolen bases and a sacrifice fly gave the Indies four in the second.

Four singles, a wild pitch and an error put three more across in the fourth.

In the fifth the Indies batted around and one over. Bases on balls to Riggs, Ruble, Christopher, Briggs and DeFrates, two stolen bases, two singles and a double scored six runs in the fifth.

Two singles, a base on balls, a stolen base and a couple of wild throws, put three more over in the sixth. Two were added in the seventh on a base on balls, single, a passed ball and a fielder's choice.

Bowling Green got one in the sixth on two singles, a wild pitch and a fielder's choice. A walk, a fielder's choice and a wild throw added one in the seventh. Two came in the eighth on wild throws, a wild pitch and a passed ball. The comedy in tabulated form:

The Thrift of a

**MAXWELL**

comes from its special steels

Nearly 400,000 owners know well how thrifty a Maxwell really is.

Men in the trade in selling other cars often use the expression "as thrifty as a Maxwell."

Special steels are the underlying cause of Maxwell's thrift.

These are steels, made to Maxwell's own formulae, after years of tests, analysis and study, which make possible the ideal construction of great strength and light weight.

They give a Maxwell the

ability to stand wear, strain, twists and jolts that other cars much larger and heavier would have difficulty to resist.

But they make a Maxwell light. They eliminate useless weight; they ease the burden on the engine and thus gas, oil and tires render long mileage results.

Hence, the ever growing respect and admiration for Maxwell the world over; and its consequent fast growing numbers. Nearly 400,000 in use today; a year hence 500,000.

## Daily Market Report

LITTLE INTEREST  
ON STOCK EXCHANGE

NEW YORK, June 14.—The course of today's stock market was disappointing to those who had hoped developments over the week-end would find expression in higher quotations. Trading after the steady opening was almost steadily downward on professional pressure.

Nothing in the day's operations suggested revival of public interest as a result of the deliberations of the Republican national convention. Nor did the better weekly reports of the federal reserve bank and the clearing house cause any change of sentiment.

Opinion was divided regarding latest political aspects, but Wall street seemed more interested in prospective dividend announcements.

Money continued firm, to be expected in view of tomorrow's heavy income tax payments. Call loans opened at 8 per cent, last Friday's renewal rate, easing to 7 per cent. There was no increase of time funds, but conservative opinion inclined to the belief that rates would ease by the end of the month.

Gains in western tonnage followed improvements in freight conditions, but business at leading terminals in the west and southwest continued to wait on relaxation of credits.

Interior banks were reported to be renewing many loans maturing at the mid-year. Oils, especially the Mexican group equipments, motors, independent steels, tobaccos and miscellaneous specialties were the outstanding features of the day's general reaction.

Dividend paying rails, especially trans-continentals, extended last week's losses. Sales amounted to 475,000 shares. Speculative railway bonds eased variably, but liberty bonds and foreign flotations held firm. Total sales, par value, \$8,750,000. Old U. S. bonds unchanged on call.

CORN TAKES AN  
UPWARD SWING

CHICAGO, June 14.—Corn took a swing upward in value today, largely as a result of persistent receipts based on the fact that buyers failed to increase as much as had been looked for. The market closed strong, 1 1/2 to 2 1/2c net higher, with 1 1/4 to 1 1/2c, and September, \$1.64 to \$1.64 1/2.

Oats gained 1/2c to one cent. In provisions the outcome ranged from 2 1/2c decline to 25c advance. Arrivals of corn here proved to be only about half as heavy as some optimists had predicted.

However, although drp weather had been interrupted, the rains did not appear sufficiently general to be an important factor. Except during a brief setback in prices at the opening, therefore, bullish sentiment ruled the pit throughout the day with but little opposition. Especially at the last, demand was active from commission houses and shorts. There was also an improved call for shippers, a circumstance said to be due in some degree to falling off in the visible supply total. Closing quotations were the topmost of the session.

Strength in oats was derived more or less from crop damage reports coming from parts of Illinois, Iowa and Indiana.

An advance in the price of hogs helped provisions to average higher, lard leading.

### THREE SCORE AND TEN CELEBRATED

Yesterday was the 70th birthday of Charles Hopper, the well known shoe merchant and the event was properly celebrated by a family picnic supper at Nichols Park.

Mr. Hopper was born in Scarborough, England and with the family came to this town in 1856. There were eight sons and three daughters of whom four sons and one daughter are living. They are, Charles, James, Richard and Philip and Mrs. Robert Hunter. Mr. Hopper's children are: Thomas V., Fletcher, Lena, Clara, Fred and Charles H. One daughter, Miss Effie has passed away. There is not much danger of race suicide nor of extinction of the name as Mr. Hopper has eight grandsons and one granddaughter. When the father decided to remove to this country he engaged passage on a vessel to sail from Liverpool. Mrs. Hopper's brother, Rev. Philip Pad, was an earnest Christian minister and prayed many times that the family might take the right ship and have a safe journey. Another minister, had married Mrs. Hopper's sister. He was Rev. Mr. Mortimer and he too made the same prayer. When the family arrived at Liverpool there were three ships to sail but the one on which the Hoppers had engaged passage was full and they had to take another at the last moment and it was the only one of the three which was not lost.

### ANNUL EAST STATE ST. PAVING CONTRACT

COUNCIL TAKES ACTION AT MEETING MONDAY EVENING—GRANTS PERMISSION TO USE PAVEMENT IN SQUARE FOR FOURTH OF JULY CELEBRATION—ROUTINE BUSINESS IS TRANSACTED

At the regular meeting held Monday the city council adopted an ordinance annulling the contract of John E. Bretz for paving East State street. This action was taken because the members of the council did not believe that a paving contract would be suitable for the street.

The action of the council puts the street back to where it was before the ordinance was passed in 1915. The paving has been hanging fire and it seems to be the consensus of opinion that Mr. Bretz will be glad to be relieved of the contract.

City Attorney Bellatti prepared the ordinance which carried an emergency clause. When he arrived at the city hall it was necessary to secure another alderman, as Ald. Moore and Williamson were both absent and it takes two thirds of the members to pass an emergency clause.

Ald. Cain, chairman of the police committee, sent Night Captain Elliott and Patrolman Williams out and they rounded up Ald. Williamson and brought him to the meeting. The council also granted permission to use the pavement in the public square for a Fourth of July celebration. Pay rolls were approved and a number of minor matters given attention.

Roll call showed all members present except Ald. Moore and Williamson, Mayor Crabtree presiding. The minutes of the last regular meeting were read and approved as read.

A communication regarding a setting work for the water plant was read and referred to the water committee.

**PROTEST AGAINST ORDINANCE**  
A communication was read from the Trades and Labor Assembly protesting against the passage of the ordinance providing for a license of \$300 for street fairs. It was received and placed on file.

Claims against the city were presented and all those properly approved were ordered paid.

Ald. Flynn, chairman of the sewer committee, reported that he had investigated the sewer trouble at the residence of Enslay Moore on West State street. The alderman said the Mr. Moore wanted the intakes stopped up. It was the opinion of Ald. Flynn that the trouble was in the trap in the sewer connection.

Ald. Ebbie chairman of the Public Health committee reported that members of the Civic Pride league were preparing for the cleanup campaign and would be underway soon. He was of the opinion that it would result in great good to the city.

Ald. McGinnis for the Public Improvement committee recommended that ordinances be drawn for sidewalks on the North side of Walnut street between North Main and Duolin avenue and on East Independence avenue between North Main and the property of Mrs. Kiehl. The engineer was instructed to prepare the ordinances.

Ald. Flynn reported that the switch track for the power plant would be completed this week.

The ordinance providing for the building of a sewer in West Edgmont street was given a second reading and adopted.

Ald. McGinnis chairman of the Public Improvement committee reported adversely on the opening of South Kentucky street. The alderman said it would be quite an expense and he did not believe the benefit derived would justify it. The council concurred in the Alderman's report.

City Attorney Bellatti was present with an ordinance annulling the contract of John E. Bretz for the paving of East street and also all court proceedings relative to the same. He made a brief statement to the council relative to the ordinance.

However, there were only five aldermen present and as it would take six to adopt the emergency clause of the ordinance it was decided to try to locate Ald. Moore or Ald. Williamson.

**FOURTH OF JULY CELEBRATION**  
At this point the council heard from Charles DeSiva, C. S. Richards and Martin Cosgriff relative to using the public square for a Fourth of July celebration. Mr. DeSiva said they had been appointed a committee from the meeting held at the court house to ask permission of the council to use the pavement in the public square.

C. S. Richards outlined the program it was proposed to have. Mr. Richards said that it would include athletic contests, a parade, band concerts and dancing and an airplane flight.

Ald. Cain offered a motion that the use of the pavement on the square between the sidewalk line and the curbing of Central park be granted, providing the committee agreed to furnish police and to place the square in the same condition in which they found it. This the committee agreed to do and the motion carried.

Mayor Crabtree also asked Mr. Cosgriff to take steps to have the lot owned by him on South Clay avenue and East Norton avenue placed in a safe condition. Mr. Cosgriff promised to do so at once.

### ANNUL EAST STATE STREET CONTRACT

At this point Ald. Williamson who had been located came in and took his place in the council. The ordinance annulling the contract of J. E. Bretz was read. It was adopted with an emergency clause attached.

Ald. Flynn spoke of material on the walk where the Zahn garage is being erected without lights on it and also of the practice of leaving wagons in the street at night without lights. The clerk was instructed to notify Mr. Chumley the contractor to place lights on material at night.

The council, then on motion, adjourned.

### JACKSONVILLE ELKS FLAG DAY EXERCISES

WERE HELD IN GRACE CHURCH MONDAY EVENING—STRONG ADDRESS BY HUGH GREEN—OFFICERS CARRY OUT FLAG RITUAL

Flag Day was celebrated by Jacksonville Lodge No. 682 B. P. O. E. at Grace church Monday evening. The audience was composed largely of the public.

The introductory exercises were conducted by the officers of the lodge with T. C. MacVicar as Exalted Ruler and the answers as to what the flag stood for from their standpoint were as follows: Esteemed Leading Knight, Paul D. Moriarty, "The Emblem of Charity"; Esteemed Loyal Knight, H. L. Caldwell, "The Emblem of Justice"; Esteemed Lecturing Knight, G. H. Timmons, "The Emblem of Brotherly Love"; the secretary answered for the Exalted Ruler, "The Emblem of Fidelity."

Following the Elks' Tribute to the Flag the officers went thru a ritual building up a huge bell of flowers, red, white, and blue.

Hugh Green made an address on "Our Country and Our Flag." He took up the flag as the symbol of the country, when we think of the flag we think of the country and all that it has meant to us in 143 years it has been the symbol of the United States of America.

In a way it is a flag of War, it was at the front and victorious in the Revolution, the Second War with England, the Mexican War, the War between the States, the War with Spain, and the recent World War.

But even more it is the flag of Peace for of the 143 years of its history scarcely fifteen have been years of war. Hence it is the symbol of the freedom of religious thought, education, economic development and the marvelous growth and progress from a small weak and disorganized beginning with a few scattered settlements to the Great Nation of today, the leader in wealth and power in the world.

And this power has been made beneath the flag of the free heart's hope and home.

By aged hands to valor given: Thy stars have lit the welkin dome And all thy hues were born in heaven.

Forever float that standard shield, Where breathes the foe but falls before us.

With freedom's soil beneath our feet And freedom's banner streaming o'er us.
